

Eco-friendly Soaping agent without sulfur Soaping-129

After dyeing with dispersing dyes, reduction cleaning is a necessary process. Most of the RC agents are sodium dithionite-based items. Not comply with ZDHC, high COD, and high conductivity ratio in wastewater. Therefore, Gracess developed Soaping-129. No sulfur, odorless, harmless, and safe for application. The cleaning performance is as perfect as the original sodium dithionite. The wastewater decoloring performance is extraordinary.
